ASSEMBLY INSTRUCTIONS FOR LIGHTHOUSE

Tools Needed	PARTS List	Hardware
Screw gun	Lighthouse bottom	1/4"x1-1/2" Bolts (2)
Hammer	Lighthouse head	Sq. drive bit (1)
		Ground stakes (2)

Step 1 Unfasten shipping strip from lighthouse base with screw gun. Pull head out of bottom of lighthouse and unfasten shipping strip from lighthouse head.

Step 2 Place lighthouse head on top of lighthouse. Align predrilled holes and screw (2) 1/4"x1-1/2" bolts into metal inserts with threads. These bolts are made for either sq. drive bit or a phillips screwdriver can be used to tighten bolts.

Step 3 Pound (2) 12" stakes into ground through holes in lighthouse bottom to secure to ground.
